

**Permanent Mission of the Republic of the Philippines
to the United Nations and Other International Organizations, Geneva**

NV-EPG-27 -2021

The Permanent Mission of the Republic of the Philippines to the United Nations and Other International Organizations in Geneva presents its compliments to the Office of the United Nations High Commissioner for Human Rights and, with reference to the letter dated 22 January 2021 from Ms. Beatriz Balbin, Chief - OHCHR Special Procedures Branch, has the honor to provide the preliminary response of the government of the Philippines to joint communication number AL PHL 1/2021 and news release dated 28 January 2021 through the attached document.

The Permanent Mission of the Philippines requests that the attached document be uploaded side by side with the OHCHR news release dated 28 January 2021 as well on the OHCHR communication report and search website. Further, the Mission would appreciate the OHCHR's feedback on actions taken on the above requests.

The Permanent Mission of the Republic of the Philippines to the United Nations and Other International Organizations in Geneva avails itself of this opportunity to renew to the Office of the United Nations High Commissioner for Human Rights the assurances of its highest consideration.

Geneva, 01 February 2021

OFFICE OF THE UNITED NATIONS HIGH COMMISSIONER FOR HUMAN RIGHTS

Mr. Rory Mungoven (rmungoven@ohchr.org)

Ms. Esther Lam (elam@ohchr.org)

Mr. Sylvain Lidome (slidome@ohchr.org)

Preliminary Response to Joint Communication JAL/PHL 01/2021 and
News Release dated 28 January 2021

The Philippine Mission acknowledges receipt of Joint Communication JAL/PHL 01/2021 and an accompanying news release published on 28 January 2021 from the following Special Procedures Mandate Holders (SPMH):

1. Elina Steinerte, Vice Chair of the Working Group on Arbitrary Detention;
2. Agnes Callamard, Special Rapporteur on extrajudicial, summary or arbitrary executions;
3. Mary Lawlor, Special Rapporteur on the situation of human rights defenders;
4. Jose Francisco Cali Tzay, Special Rapporteur on the rights of indigenous peoples; and
5. Fionnuala Ni Aolain, Special Rapporteur on the promotion and protection of human rights and fundamental freedoms while countering terrorism.

While reserving the right to submit a comprehensive response to the SPMH queries in JAL/PHL 01/2021, the Philippine Mission wishes to convey the following preliminary points:

1. The SPMH called on the Philippines to “drop the murder charge” against Mr. Windel Bolingit, purportedly an indigenous peoples’ rights defender, and characterized the charge as “false” and “fabricated”. The Mission believes that these allegations are presumptuous and the public call for the Philippines to drop the murder charge is inappropriate and unreasonable. These statements from the SPMH undermine domestic legal processes and callously dismiss the cause for justice of the murder victim and his family members. Contrary to claim by the SPMH, these assertions in the communication and as made public in a press release prejudice the accuracy of the information they have received on Mr. Bolingit’s case.
2. These are the information known to the Philippine government about the case:
 - The subject Mr Windel Bolingit is facing a charge of murder for the death of [REDACTED] on 21 March 2018. [REDACTED] was found dead the following day, his body wrapped in a plastic cellophane.
 - Mr. Bolingit is one of the 11 respondents in Criminal Case 26316 filed before the Regional Trial Court in Tagum City, Branch 30, Davao del Norte. The other respondents are at large.
 - The main witness of the prosecution is [REDACTED] a former member of the New People’s Army (NPA), who surrendered to authorities on 3 December 2018. [REDACTED] has personal information on the case, and has direct personal experience of the event, being an eyewitness. It is on the strength of his testimony that Mr. Bolingit and his co-accused were prosecuted and subjected to warrants of arrest validly issued by the trial court.

- The murder plot was carried out against [REDACTED] an ex-NPA who was peacefully leading a civilian life after surrendering to authorities. The murder was carried out under the leadership of a certain [REDACTED] also known as [REDACTED] of the NPA.
3. The Philippine Mission emphasizes that the murder charge against Mr. Bolingit is well-grounded and validly brought within established rules of criminal procedure in the Philippines. Pursuant to his inviolable right to due process, Mr. Bolingit was duly notified of the charge brought against him and required to submit a counter-affidavit to the prosecutor in order to challenge the allegations. Mr. Bolingit, however, deliberately ignored this opportunity to air his side in official proceedings and instead went into hiding. Jurisprudence in the Philippines has repeatedly declared that a truly innocent person would grasp the first available opportunity to defend himself and assert his innocence, which Mr. Bolingit chose not to do.
 4. The State is duty-bound to prosecute Mr. Bolingit, having established the elements of murder on the basis of credible testimony which the accused did not bother to challenge at the earliest opportunity. In fulfilling its obligations to provide effective remedies to victims of criminal acts, the Philippines cannot be accused of oppression or arbitrariness, with Mr. Bolingit's right to be heard remaining unimpaired while in custody and in the eventual course of fair judicial proceedings.
 5. The Joint Communication and news release also make mention of incidents in Panay Island that led to the deaths of nine (9) alleged indigenous peoples' community leaders and the arrest of 16 others. The Philippine Mission notes that it submitted information regarding these legitimate law enforcement operations against armed NPA members in its note NV-EPG-10-2021 dated 07 January 2021 to the Office of the High Commissioner for Human Rights (OHCHR)¹. The omission of the information provided by the government to the OHCHR in good faith suggests the lack of objectivity and fairness in the appreciation of information being brought to the attention of the OHCHR and the Special Procedures which makes the system vulnerable to manipulation by certain parties and criticisms of bias.
 6. The characterization of Mr. Bolingit as a human rights defender subject to harassment, as alleged, and the qualification of the murder charge as "fabricated" are falsely drawn from his known association with the Cordillera People's Alliance. This prejudgment is irresponsible and dangerous, as it is blind to the crime committed by Mr. Bolingit and to the interest of the murder victim and his family. The sweeping assertions made by the SPMH, which are not fully informed by facts, seem to suggest that human rights defenders are not subject to the laws of the Philippines. Had the SPMH exercised due diligence and care in assessing this matter of Mr. Bolingit, it would have carefully balanced these reports with well-established facts known in the Philippines about Mr.

¹ Attached as Annex "A"

Bolingit's identity as a high-ranking NPA leader. The Philippines deeply regrets the hasty publication of these prejudgments against the Philippine justice system, to the detriment of the murder victim and the cause of justice at stake, with the SPMH having given the government no prior opportunity to present the facts of the case.

7. The Philippines reiterates its appeal for the SPMH to thoughtfully consider the reports submitted to them *vis-a-vis* the context and realities in the Philippines. The Philippine government has described this context in various communications to the OHCHR and in the publication of the *Philippine Human Rights Situationer*². In that publication and the letter to the High Commissioner LT-EPG-118-2020 dated 17 September 2020³ concrete case studies were presented about the involvement of personalities and groups affiliated with certain civil society organizations in the Philippines in criminal activities. The SPMH, in failing to take into account the larger context of the five-decade long communist insurgency in the Philippines, repeatedly allow themselves to be used in the Communist Party of the Philippines-New People's Army's (CPP-NPA) deceptive strategy of using the cover of human rights defenders to allow its members to perpetrate criminal and terroristic acts. This is clearly the case in misleading accusations against the Philippine government regarding Mr. Bolingit and the incidents in Panay Island.
8. This type of exploitation by the CPP-NPA of the Philippines' open and pluralistic civic space has abetted the group's campaign to perpetrate killings of security forces and civilians, destroy public and property, and stymie economic development especially in the rural areas. The *Philippine Human Rights Situationer* has underlined the massive scale of terrorism in the country, which has kept it among the top 10 countries in the world impacted by terrorism. This is a reality that is often ignored, perhaps because it is too baffling to imagine for SPMH who mostly have not lived and do not live in such a difficult and challenged context.
9. The NPA and its criminal activities have not only cost lives, but has damaged communities and abused the human rights of hundreds of thousands of Filipinos for decades. The Human Rights Office of the Armed Forces of the Philippines submitted on 12 January 2021⁴ to the UN Resident Coordinator in Manila and the UN Human Rights Adviser a detailed report on 532 CPP-NPA-perpetrated incidents of civilian property destruction since 2010. It is clear that these crimes, promoted and unrefuted by the terrorist group, have the purpose of keeping rural communities poor and undeveloped, denying hundreds of thousands of people of their right to livelihood and the right to enjoy a higher quality of life.

³ Link to document at <https://www.officialgazette.gov.ph/downloads/2020/06jun/20200609-PH-Human-Rights-Situationer.pdf>

⁴ Attached as Annex "C"

10. While the Philippine Mission expresses its continued openness to dialogue and exchange of information with the OHCHR, including Special Procedures Mechanisms, it maintains its views that stakeholders must take care to exercise due diligence and undertake a fair and balanced assessment of the situation on the ground. It should be expected that as the Philippine government's holistic and effective approach to ending the communist insurgency continues to degrade the CPP-NPA's operations, efforts to smear the country internationally shall increase and, unfortunately, shall be amplified by certain parties, as they lose their influence on the ground. The *Human Rights Situationer* has pointed out the presence of the CPP-NPA leadership in Europe, which is the heart of its international propaganda activities against any sitting government in the Philippines. The surrender and gradual reintegration into mainstream society of 7,615 former NPA cadres and armed militants in 2020 alone, as well as the waning of NPA influence in villages across the country because of solid socio-economic interventions, attest to the success of this current approach.
11. The Philippine Mission remains committed to engage constructively on human rights and pursue the kind of cooperation that produces meaningful outcomes on the ground, instead of getting bogged down in an endless and counterproductive cycle of responding to baseless and unsubstantiated allegations. All mandate holders are encouraged to do the same.
12. In the interest of balance and fairness, the Philippine Mission requests that the OHCHR furnish all the SPMH concerned with copies of this preliminary response, including its Annexes, and that the same be published on the OHCHR website as a rejoinder to the news release dated 28 January 2021. Further, a request is made for a feedback on actions taken on the above requests.

01 February 2021, Geneva

PERMANENT MISSION OF THE REPUBLIC OF THE PHILIPPINES
TO THE UNITED NATIONS AND OTHER INTERNATIONAL
ORGANIZATIONS, GENEVA

ANNEX "A"

NV-EPG-10-2021

The Permanent Mission of the Republic of the Philippines to the United Nations and Other International Organizations in Geneva presents its compliments to the Office of the United Nations High Commissioner for Human Rights and wishes to refer to the dialogue and exchange of information between the Mission and the OHCHR on matters concerning developments in the Philippines, including reports on personalities whose actions in conflict with the law have been used by interest groups to raise concerns on the freedom of civil society actors to conduct their work in the country.

In this regard, the Permanent Mission has the honor to convey the following information on the deaths of nine (9) suspected armed members of the Communist Party of the Philippines-New People's Army-National Democratic Front (CPP-NPA-NDF)¹ and the arrests of several others in Panay Island, Philippines during operations by the Philippine National Police (PNP) on 30 December 2020:

- Police operations were conducted to execute 28 search warrants in Tapaz, Capiz and Calinog, Iloilo, in Panay Island as part of regular law enforcement activities against loose firearms and explosives. The warrants were sought on the basis of complaints of civilians in the aforementioned communities
- The operations resulted in the arrest of 16 individuals and the deaths of nine (9) others, and the seizure of illegal firearms, ammunition, and explosives. The 9 individuals had decided to fight back against police operatives executing the search warrants, resulting in their deaths during the subsequent exchange of fire;
- Among the illegal firearms, ammunition and explosives seized during the operations include: 26 caliber .45 pistols, 26 rifle grenades, 12 hand grenades, one (1) improvised "holen" gun, seven (7) improvised/homemade 12- gauge shotguns, one (1) caliber .38 revolver, one (1) 9mm sub-machine gun, two (2) air rifles, one (1) flare, assorted magazines and ammunitions, and bandoliers.
- Proper inquest proceedings and filing of charges before the prosecutor's office in Tapaz, Capiz and Calinog, Iloilo were conducted for the arrested individuals the very next day. Even under detention, their rights to due process and to seek all available legal remedies are respected and protected under Philippine law and practice.
- The loss of life, while unfortunate, resulted from the legitimate and proportionate use of force by police operatives against armed individuals who presented clear threats. Nevertheless, as part of its obligation to determine if the Police Operational Procedure was followed in any police operation, especially if suspects were either killed or wounded, the PNP has conducted a *motu proprio* investigation of the operations in Capiz and Iloilo to include a review of all documents and discussion with police teams included in the operation.

¹ Details of aforementioned individuals attached as annex

- Intelligence reports, including information from public statements and sworn testimonies of former New People's Army (NPA) cadres in the area, point to the active involvement of the individuals arrested and killed in past and present criminal activities perpetrated by the NPA².
- While certain civil society groups have characterized the situation as "attacks on indigenous communities" or "attacks on human rights defenders", these are valid law enforcement operations aimed at curtailing criminal activities in the area, including extortion, harassment and the proliferation of loose firearms and explosives;

The Mission recalls its letter addressed to the High Commissioner for Human Rights dated 16 September 2020, where case studies were presented on the involvement of personalities being projected as "human rights defenders" with criminal and terrorist activities of the CPP-NPA-NDF. The portrayal of the individuals arrested and killed in the aforementioned police operations as mere civilian activists, human rights defenders or leaders of indigenous people's organizations is a classic example of the CPP-NPA-NDF's deceptive strategy.

The Mission maintains that the use of the self-styled title of "human rights defender" does not grant immunity or exemption from the effects of the law or accord special privileges from accountability for criminal acts. It underscores that the UN Declaration on Human Rights Defenders clearly states that defenders have responsibilities, as well as rights, and their actions must be peaceful and lawful. Possession of illegal firearms and explosives, violence against law enforcement officers validly carrying out their duties, and active involvement in criminal and terrorist activities of the CPP-NPA-NDF cannot be considered peaceful, and are clearly in violation of the law.

The Mission affirms its openness to sustain its sincere engagement with the OHCHR on this matter, and hopes that the facts provided are able to help the latter properly situate reports and assess claims brought before it on the human rights situation in the country.

The Permanent Mission of the Republic of the Philippines to the United Nations and Other International Organizations in Geneva avails itself of this opportunity to renew to the Office of the United Nations High Commissioner for Human Rights the assurances of its highest consideration.

ANNEX "B"

LT-EPG-118-2020

17 September 2020

Dear Madam High Commissioner,

I wish to refer to the current engagement between the Philippines and your Office on the subject of allegations of reprisals and the free and empowered space for civil society in the Philippines.

Appreciating your concern on this issue and with the intention of keeping you seized of relevant developments, let me first give you assurances of the Philippine Government's unshaken commitment to keep the civic space and the power of civil society actors unhindered and protected while also addressing instances where the legitimate civic spaces are being exploited for criminal ends.

Allow me to recall that the Philippines' statements in the Human Rights Council have consistently emphasized the following:

- the government's willingness to engage all parties and address all claims of human rights violations, case by case, on the basis of facts;
- the need to anchor the Council's discussions and actions on the basis of facts, and to apply due diligence to allegations presented by certain actors; and,
- the exploitation of civic spaces, including platforms in Geneva, by certain actors claiming to represent the Philippine civil society. Attention has been drawn to actors associated with the CPP-NPA-NDF, a terrorist group in the Philippines whose leadership is based in Europe, that blur the lines between social activism and armed struggle/terrorism, to pursue criminal ends while evading accountability.

In this connection, I have the honor to provide your office the attached document with recent cases that further substantiate this position of the Philippine Government, in addition to the specific cases pointed out in the Philippine Human Rights Situationer which was published in May 2020.

Continuation on page 2: The list of 6 cases, sums up information...//

HER EXCELLENCY MICHELLE BACHELET

High Commissioner

Office of the UN High Commissioner for Human Rights
Palais Wilson, Geneva, Switzerland

Cc: Mr. Rory Mungoven (rmungoven@ohchr.org),
Ms. Esther Lam (elam@ohchr.org)

**PERMANENT MISSION OF THE REPUBLIC OF THE PHILIPPINES
TO THE UNITED NATIONS AND OTHER INTERNATIONAL
ORGANIZATIONS, GENEVA**

The list of 6 cases, sums up information from numerous public documents that highlight the involvement of supposed NGO personalities in crimes and incidents related to the activities of the CPP-NPA-NDF. This information underlines the need to examine more closely claims of certain parties that pursue the CPP-NPA-NDF agenda under the cover of "human rights defenders". Cases in the list are only representative of the multitudes of cases now pending in Philippine courts which illustrate the complex challenge of terrorism in the country. I shall make myself available to meet you at your convenience to discuss this matter with you, to help you further appreciate the context, rationale and necessity for Anti-Terror Act.

I wish to underscore that the Philippines maintains and protects the free and empowered civic space for the over 101,000 registered non-profit organisations, and their legitimate advocacies and expressions of dissent.

I wish to take this opportunity, Mme. High Commissioner, to renew the assurances of my highest consideration.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "Evan P. Garcia", with a stylized flourish at the end.

EVAN P. GARCIA
Permanent Representative

CASE STUDIES OF INVOLVEMENT OF NGO PERSONALITIES IN CRIMINAL ACTIVITIES

CASE STUDY 1

[REDACTED]

An armed encounter in the Municipality of Brooke's Point, Province of Palawan between units of the Philippine Marine Corps and the terrorist Communist Party of the Philippines – New People's Army (CPP-NPA) occurred on 03 September 2020, resulting in the deaths of 5 NPA members and 1 member of the Philippine Marines. Several firearms were seized thereafter. The military operation was triggered by complaints from the local community of CPP-NPA harassment and forced recruitment which necessitated a response from the Philippine Government.

Among those killed were female NPA members [REDACTED] and [REDACTED].

[REDACTED] has been portrayed as an "activist" and "peasant community organizer" for the Pagkakaisa at Ugnayan ng mga Magsasaka sa Laguna (PUMALAG). She had earlier been arrested for charges of murder and kidnapping in March 2014, in connection with criminal acts committed by the CPP-NPA. At that time, front organizations such as Karapatan decried her arrest and described her as a "political prisoner" whose only fault was her relationship with her father, [REDACTED] former spokesperson of the CPP-NPA. [REDACTED] was later released upon the resolution of her case before the Philippine courts. While the Armed Forces of the Philippines (AFP) had suspected that she immediately resumed her work with the CPP-NPA after her release, front organizations continued to portray her as a victim of so-called "red-tagging" and oppression by the Philippine Government.

[REDACTED] on the other hand, was a Secretary-General of the Gabriela Women's Party List (Gabriela) in the Southern Tagalog Region (to which Palawan belongs). Gabriela, which holds a parliamentary party-list seat in the Philippine House of Representatives, has also repeatedly complained of the "red-tagging" of its members, deceptively claiming that they are not members of the CPP-NPA but rather are "activists" involved in such advocacies as women's rights and anti-mining, as how they have portrayed Ms. Manalo.

None of these above-ground legal organizations now deny that [REDACTED] and [REDACTED] are active fighters of the CPP-NPA, and have instead heaped public praise on the slain members of the NPA. These organisations have shifted their campaign to vilify the Philippine Government by falsely claiming that the AFP violated international humanitarian law during and after the military operation. The AFP and the municipal government of Palawan have, in fact, been actively assisting the families of the slain terrorists in the recovery of their remains.

The worn refrain of certain NGO organizations that their members are victims of "red-tagging" falls flat on its face with the deaths [REDACTED] in a legitimate military operation that cost the life of a soldier. The involvement of "activists" in the NPA obfuscates legitimate activism and expressions of grievance against the Government and undermines democracy. None of the said organisations decry the NPA's responsibility for killings of soldiers, policemen and civilians, the destruction of public and private property, and the active hindrance of economic and social development in the countryside in the past decades.

CASE STUDY 2

[REDACTED] was arrested on 15 March 2020 in Lala, Province of Lanao Del Norte during a joint operation of PNP and Armed Forces of the Philippines on the basis of a Warrant of Arrest issued by the Presiding Judge of the Regional Trial Court in Agusan Del Norte on 30 January 2020. She is now detained in the Provincial Jail in the Province of Agusan Del Sur.

In July 2020, CIVICUS, Karapatan and other organizations called for the release [REDACTED] citing her background as a “human rights defender who worked for the poor and marginalized”.

[REDACTED] and several others are facing charges for a criminal case of destructive arson as well as two counts of kidnapping and serious illegal detention, which are non-bailable cases. The charges arise from the attack and burning of a detachment of community-based civilian reservists who provide auxiliary peace and security services to communities under the supervision of the military, as well as the taking and detention for months of two civilians in an NPA camp. The judicial process is ongoing.

[REDACTED] is a former Secretary-General of Karapatan in northern Mindanao and is also known to be the Finance Officer of the Regional White Area Committee (RWAC), local branch of the top planning and governance body of the terrorist organization CPP-NPA-NDF.

CASE STUDY 3

Haran compound

Members of the Ata Manobo Indigenous Cultural Communities/Indigenous Peoples from Davao Del Norte filed before the Prosecutor’s Office of Davao City on 15 September 2020 cases against CPP-NPA-NDF personalities for coercing, detaining and trafficking some 400 members of indigenous communities inside the Haran compound. The Philippine Human Rights Situationer issued in May 2020 (page 109) described the way the Haran compound has been used by the CPP-NPA-NDF for propaganda and fund-raising purposes, for coercing detained indigenous peoples to hold placards during anti-government rallies, and for trafficking them across Mindanao to serve the group’s political purposes.

The Haran compound, which is owned and operated by the United Church of Christ in the Philippines (UCCP) – an NGO presenting itself as a legitimate social advocacy organization and human rights defender - was ordered closed in January 2020 after months of investigations on its activities by law enforcement authorities. The local government units and the Department of Social Welfare and Development provided assistance to IP victims including socio-economic interventions such as livelihood on their return to communities.

Bayan Muna, Karapatan and other human rights organizations have issued pronouncements decrying the closure of the Haran compound in January 2020 as a “witch hunt” against indigenous peoples and “an attack against IP human rights defenders”.

CASE STUDY 4

Authorities arrested [REDACTED] 53 years old, and [REDACTED] 50 years old, in separate operations on 1 November 2019 in two different barangays (village) in Escalante City, Province of Negros Occidental. The operations were conducted on the basis of Search Warrants No. 5948 and 5949 issued on 30 October 2019 by Branch 9 of the Regional Trial Court National Capital Region in Quezon City.

BAYAN, KARAPATAN and affiliated human rights organizations in the Philippines denounced the arrests as an attack on human rights defenders, particularly women activists and progressive groups and critics of government policies.

[REDACTED] were known to be staff of the National Federation of Sugarcane Workers (NFSW) in Negros.

The search warrants were sought with intelligence from the members of the community of suspicious activities of [REDACTED]. Following are a list of items seized during the searches:

- [REDACTED] residence – 2 pcs empty shell of M16 placed in a black bag, 1 unit cal .357 revolver without serial number, 1 unit cal .45 pistol with serial #215348 loaded with live ammunitions and carton box of 40 mm/M203 live ammunitions
- [REDACTED] – 2 pcs Improvised Explosive Device, 7 pcs 40mm/M203 live ammunitions, 1 unit cal. .45 pistol with serial number 76124 loaded with live ammunition, 1 unit cal..45 pistol STI executive without serial number, 1 unit Colt.45 pistol with serial number 53487 loaded with live ammunition and five units of assorted cellphones.

In both cases, the search operations were conducted in an orderly manner, no unnecessary force was employed, nothing was lost nor taken without official receipt. Subjects were apprised of their constitutional rights and the anti-torture act. Markings, inventory and photographing of all seized items were made inside the house of the subjects in the presence of elected officials of the local villages, a media representative (in arrest of Sultan), and a representative of the Department of Justice (in arrest of Perucho). Subjects were also referred to Vicente Gustillo District Hospital for proper medical examination.

Subjects have been charged for violations of the Republic Act (RA) 10591(Comprehensive Firearms and Ammunition Regulation Act) and R.A. 9516 (Illegal Possession of Explosives). Charges of qualified human trafficking are also being prepared because of testimonies on the subjects' involvement in the recruitment of minors into the NPA armed struggle. They are detained in Escalante City and awaiting trial.

CASE STUDY 5

[REDACTED], 55 years old, was arrested in Cadiz City, Negros Occidental, on 9 June 2020 during an incident at a checkpoint where during a routine check related to the implementation of anti-Covid measures of Cadiz City, the subject was asked to wear a mask inside a van. Suspect refused to sign the contact tracing form, as required by public authorities. While being led by law enforcement authorities to a designated area to sign the contact tracing form, Davao slowly drew out a hand grenade from his bag. Police officers prevented him from pulling out the lever of the grenade. Davao was apprehended on this basis.

Found in Mr. Davao's possession aside from the fragmentation grenade were anti-government documents, PHP 14,000 cash, eight cellular phones, receipts of financial transactions, letters, a newsletter of the Roselyn Jean Pelle Command i.e. the Northern Negros Guerrilla Front of the New People's Army.

Upon subsequent background check, the police officers later discovered that Davao was subject of Search Warrant 5948 (see *Search Warrant for [REDACTED]* – see *Case Study 4*) issued in October 2019, but was able to escape during the implementation of the Search Warrant.

[REDACTED] is a known labor activist and high-ranking official of the National Federation of Sugar Workers (NFSW) in the Province of Negros Occidental. The NFSW has quickly condemned the arrest and detention of [REDACTED] stating that “this is another form of trumped-up cases which the Duterte regime adds to his long list of repressive records against the progressive leaders of the sugar workers.”

Intelligence also indicates that [REDACTED] is the Secretary and Finance official of the White Area Committee of North Negros Front, the local governing body of the CPP-NPA-NDF.

Authorities have filed charges of R.A. 9516 (Illegal Possession of Explosives) and are preparing other charges against the subject. Subject is detained in Handumanan, Negros Occidental and awaiting trial.

CASE STUDY 6

[REDACTED] and [REDACTED] are among the 50 “activists” arrested during an authorized raid conducted by authorities in the offices of Bayan Muna/Kilusang Mayo Uno, Gabriela, labour group National Federation of Sugar Workers (NFSW) on 31 October 2019, in the Province of Negros Occidental. These personalities are known to be leaders of the NFSW and Kilusang Magbubukid ng Pilipinas (a farmers' group). The raids were conducted on the basis of four (4) Search Warrants issued by the Presiding Judge of Regional Trial Court – National Capital Region.

The simultaneous raids elicited pronouncements of concerns from Philippine NGOs including Karapatan as well as the Amnesty International, citing this as an “escalation in the ongoing *Case Studies of Involvement of NGO Personalities in Criminal Activities* _15 September 2020

crackdown against progressive groups” and a “crackdown against government critics and political activists”, “coming amidst a climate of almost total impunity inside the country”.

During the raids, authorities recovered subversive materials and high-powered firearms, including 32 assorted firearms, three fragmentation grenades, two grenade launchers and assorted ammunition.

The raids also led to the rescue of 15 minors, who had been recruited to the armed wing of the CPP-NPA-NDF, the New People’s Army, in the guise of joining “cultural groups” that perform during political rallies organized by the NGOs. The minors and their families have since received the package of assistance from the Department of Social Work and Development and security protection from authorities, including the Witness Protection Program.

In this connection, the City Prosecutor found probable cause to indict [REDACTED] with 5 other people including [REDACTED] on complaints filed against them for Violation of Republic Act 9208 as amended by RA10364 (Qualified Human Trafficking). The complaints were filed before local authorities of Bacolod City in November 2019.

Sworn testimonies of 4 minors and their families state that the above-named convinced minors to join a cultural group with promise of free education, food and decent place to stay, only to later brainwash, groom and train these minors as fighters of the New People’s Army. They were forced to stop going to school. They were to perform during political rallies and in cultural events in exchange for free food and cash. They attested to being with personalities of NGOs such as Anakbayan, Gabriela, Bayan Muna and being oriented to the doctrines of Communism and the armed struggle of the CPP-NPA-NDF by personalities who spent the night in their living quarters carrying heavy firearms. Two parents gave an oath that they were surprised to see their children among those arrested in the raid in Bacolod City and that their families received threats and intimidation from certain parties to warn them against cooperating with the government and providing information on the involvement of Albert dela Cerna in the recruitment of their children. One of the complainants attested that he would gradually be involved in NPA activities soon after receiving orientation from its members, and later would spend his 18th birthday in an NPA camp, and be involved in an encounter with military forces. He attested to experiencing exhaustion and hunger on the 15 days that his NPA unit was on the run following the encounter. He formally graduated in the NPA crash course with 20 others in April 2018. This young man would shuttle between performing for the cultural group and being involved in NPA activities, including procuring supplies, running errands and undergoing “medical training.” Another minor attested to seeing personalities inside the compound raided possessing firearms and accompanying Albert dela Cerna in the delivery of boxes of ammunitions. One minor attested to being introduced by Albert dela Cerna to NPA activities through her involvement in NARRA Youth, a grassroots organization for young people in Negros. One young person attested to starting to work for the NPA as a utility/errand boy for four years, and later at the age of 18 formally becoming an NPA member and organizer and recruiter for the NPA. He attested to being a member of the SPARU Unit of the NPA, which “was responsible for the spate of killings of farmers while wearing government uniforms” under the order of the unit commander by the name of Charity Amacan. This young man decided to leave the NPA upon the disappointing discovery that the unit’s Commanders were spending huge amounts of money without their knowledge. (End)

ARMED AND DANGEROUS
 OFFICE OF THE CHIEF OF POLICE
 (COP) - HUMAN RIGHTS OFFICE
 Camp General Emilio Aguinaldo, Quezon City

January 7, 2021

Chief, Bureau of Human Rights (BHR) / C. GAYCO
 Command, Bureau of Human Rights
 Command, 6th Avenue, UP Complex
 Diliman, Quezon City

Dear Chief, Bureau of Human Rights:

Being at the forefront for the protection of human rights and respect for international humanitarian law, the AFP Human Rights Office has been in constant engagement with the Commission on Human Rights (CHR), specifically on the aspects of training, advocacy, monitoring and reporting of incidents of alleged violations of Human Rights (HR) and International Humanitarian Law (IHL).

Our report on the use of Children in Armed Conflict has been taken cognizance by your good office and here, the AFP would like to report to the Honorable Commission on Human Rights the activities of the Communist Party of the Philippines-New People's Army (CPP-NPA-NPA) particularly the destruction of civilian properties to advance their struggle. A total of 532 incidents of destruction of civilian properties have been monitored since 2010. This figure shows that the CPP-NPA-NPA continue their inquiry and tender their reports to the Commission on Human Rights.

While conducting Internal Security Operations, it has been observed that the CPP-NPA-NPA are engaged in destroying civilian-owned properties, mostly through the use of explosives, and in some cases, through the use of organized, orchestrated, continuing, and systematic destruction of civilian properties through direct or indirect means. These activities are clearly a violation of the provisions of Republic Act 9851.

In addition, the AFP is keeping a list of incidents of destruction of civilian properties by the Communist Terrorist (copy attached) and is continuing to report to the Commission on Human Rights and the Department of Justice. With your guidance and support, the AFP Human Rights Office will continue to monitor and report on these incidents.

Very truly yours,

Very truly yours,

FOR THE CHIEF OF POLICE

JOSE S. GARCIA
 Colonel, AFP
