Geneva, July 2025

Office of the High Commissioner for Human Rights

GENEVA

Receipt is hereby acknowledged of communication AL CHN 6/2025 from special procedure mandate holders of the United Nations Human Rights Council, to which the Government of China submits the following reply:

China has always required Chinese citizens and companies abroad to abide by the laws and regulations of the countries where they are located. The Embassy of China in Cameroon publicly issued a notice reminding Chinese citizens to abide by the Mining Code of Cameroon and informing and guiding Chinese citizens on the need to ensure that production and operations are consistent with laws and regulations, maintain communication and coordination with Cameroon and support Cameroon in lawfully combating and controlling illegal activities.

As a party to the Minamata Convention on Mercury, China attaches great importance to the Convention's implementation and is highly regarded by the Convention secretariat and all parties. China has set up a national coordination group for the implementation of the Convention to comprehensively and systematically formulate implementation plans, make practical arrangements to promote implementation, actively promote the improvement of policies and standards, continuously increase law enforcement efforts, enhance oversight capabilities and advance the green transformation and development of related industries.
